

LED Warning light

Item no.SM-110-03C

Function & performance	Parameters
Item no.	SM-110-03C Rotating flashing Model
Dimension	Φ111*96.6 (mm) (Termianl size 119mm) R4.37" x H3.8" Inch
Working voltage	12-36V DC
Theoretical power	30W, Actual power 22-24W
Led lamp chip	Osram- 3030 Color temperature2700K, 1W* 30pcs
Material	Transparent Housing: PMMA ; Heat sink: aluminium, Base: ADC12 with Embedded DT termianl connector
Flash frequency	120times/min (360° Rotating flashing, 2sets /unit, five sets in total)
Waterproof and Dustproof	IP67
Working temperature	-40°C- +85°C
Over voltage protection	36V DC
Reverse polarity protection	36V DC
Life span	25000h, Light attenuation≤20% working 8000h
Regulation	ECE-R65 / EMC
Wiring method	Embedded DT terminal plug
Installation method	Strong magnet cup or screw fixture, screw 2-M4*20, Distance of mounting holes are 60mm
Application	Engineering vehicle、 Special vehicle、 Agriculture machinery
Packaging	White color box,1set/box, 20sets/carton (10 Pairs)
