

LED Warning light

Item no. SM-4015-RWA

Function & performance	Parameters
Item no.	SM-4015-RWA
Dimension	Φ93*70mm / R3.68" x H2.75" Inch
Working voltage	12 ~ 36V DC
Theoretical power	15W, LED-OSRAM 1W*15pcs
Actual power	6.5W @ 24VDC(MAX)
Components	Transparent lense:amber PC; Base: Black PC
Waterproof and Dustproof	IP65
Working temperature	-40°C ~ +65°C
Flash frequency	120±10 Times/min (around 2Hz)
Withstand voltage test	36V DC
Reverse polarity protection	36V DC
Surge impact	1KV
Life span	25000h,working continuously for 8000h, Light attenuation≤20%
Connection	Direct wiring, wire length 150mm (Red: positive electrode +, Black: negative electrode -)
Installation method	Strong magnet, or mounting screws M4*20
Application	Facilities lighting、 Engineering vehicle、 Special vehicle、 Agricultural vehicle
Packaging	White color box,1set/box, 20sets/carton (10 Pairs)
