

LED Warning light

Item no. SM-4015-RWB

Function and performance	Parameters
Item no.	SM-4015-RWB
Dimension	Φ110*73 mm / D4.33" x H2.87" Inch
Working voltage	12 ~ 36V DC
Theoretical power	15W, Actual power 6.5W@24VDC(MAX)
Led lamp chip	LED -OSRAM 1W*15pcs
Components	Transparent lense: Amber PC; Base: ADC12 (Three color -Blue, Red, Amber, optional)
Waterproof and Dustproof	IP65
Working temperature	-40°C ~ +65°C
Flash frequency	120±10 times/min, 2Hz
Withstand voltage test	36VDC
Reverse polarity protection	36VDC
Surge impact	1KV
Life span	25000h,working continuously for 8000h, Light attenuation≤20%
Wiring method	Direct wiring, black line is negative electrode, red line is positive electrode / or connect with terminal DT04-2P
Installation method	Strong magnet, or mounting screws M4*20 Distance of two mounting holes are 60mm
Application	Facilities lighting、 Engineering vehicle、 Special vehicle、 Agricultural vehicle
Packaging	White color box,1set/box, 20sets/carton (10 Pairs per carton)
