800*40, 800*12 宽幅门板
40*800/800*12 wide door panel

移门板
sliding door

移门板
sliding door

移门板
sliding door

PVC木塑地板
PVC WPC floor board

PVC木塑/铝共挤供暖地板
PVC wood plastic
aluminum co-extrusion heating floor

木塑方管方通
WPC square tube side pass

铝木窗
aluminum and WPC window

家具板/移门板/墙板
Furniture panel/sliding door/wall panel

家具板/墙板
Furniture panel/wall panel

木塑门、木塑框、铝木复合窗框
WPC door/WPC frame
wood composite aluminum window frame

户外椅条 户外凳
WPC outdoor chair strip
WPC outdoor stool

PVC塑钢移门板
PVC profile sliding door panel

PVC塑钢窗框
PVC plastic steel window frame

PVC塑钢窗框共挤 全包覆共挤
PVC plastic steel window frame co-extrusion/
Full-coated extruded

门框、门套线
Door frame/door cover line

门框、门套线
Door frame/door cover line

门框、门套线
Door frame/door cover line

门框、门套线
Door frame/door cover line

线槽
cable trunking

塑钢 异型材
PVC plastic steel PVC profile

600*30/500*30 宽幅板
600*30/500*30 wide door panel

塑钢异型材 140*130
plastic profile shapes 140*130

门框、门套线
Door frame/door cover line

百叶片
louver sheet

240*80 隔墙板
240*80 partition wall panel

240*80 隔墙板
240*80 partition wall panel

塑钢、异型材
PVC plastic steel /
PVC profile

PVC塑钢落水管 270*106
PVC profile down-pipe 270 x 106

软硬共挤、塑钢异型材
Soft and hard co-extrusion/
plastic profile shapes

ABS异型材
ABS special section material

195异型长城板
WPC 195 special wall board

195小圆板
WPC 195 small circular wall board

PVC木塑立柱
PVC wood-plastic composite
(WPC) column

PVC木塑扶手
PVC wood-plastic composite
(WPC) handrail

石墨共挤异型材
graphite co-extrusion profiles

PVC异型材
PVC profile

卷线共挤、三层共挤异型材
Volume line co-extrusion/
three-tier co-extrusion profiles

PP PE ABS PVC
PP PE ABS PVC

PVC木塑、发泡模具

PVC WOOD PLASTIC COMPOSITE, FOAMING MOULD

PVC+木粉
PVC发泡

PS发泡

PVC发泡；内外结皮；共挤发泡等。

PVC +wood powder

PVC foaming

PS foaming

PVC foaming ; inner and outer crust; extrusion foaming etc.

◆主要用途：

建筑装饰门框、线条、仿木地板、发泡百叶窗、吊顶材料、镜框、室内楼梯、扶手等。

MAIN APPLICATION:

Building decoration door frames, lines, imitation wood floor, foaming shutters, condole top material, spectacle frame, indoor staircases, handrails, etc.

◆以专业的配方技术为基础，可提供各类复杂断面及不同壁厚的模具。

The basis of professional formula technology, can provide all kinds of complicated cross-section and mould with different wall thickness.

◆在不更改模具的前提下,通过调整配方,可获得不同密度的制品。

In the premise of not changing the mould, by adjusting the formula, can obtain products with different density.

◆为客户从材料配方,操作技术设备选型、模具技术等方面提供“交钥匙”工程。

For the customers to material formulation, operation technology, equipment selection, mold technology to provide "turn-key" project.

塑料异型材模具

PLASTIC PROFILE EXTRUSION MOULD

PVC 塑钢门、窗、护栏。

PVC 软硬共挤；PMMA、ASA等材料多色共挤；发泡共挤等。

PVC 线槽、线管、通讯管材；一模多腔管材；发泡管；缠绕管；板带等。

PVC profile door、window、guardrail.

PVC soft hard coextrusion; Materials such as multi-color co-extrusion; foaming co-extrusion etc.

PVC cable trunking, line pipe, communications pipe; a multi cavity pipe; foamed pipe; winding pipe; board tape etc.

◆主要用途：

平开门、窗；推拉门、窗；百叶窗、中悬窗；塑钢彩色门、窗；护栏；线槽、线管等。

MAIN APPLICATION:

side-hung door, window, sliding door, sliding window; shutters, hanging window; pvc profile color door, window; guardrail; slot line pipe and so on.

◆每年近千套的模具制作经验，经过不断改进使模具能适应多种配方及不同的设备。

The mould every year nearly one thousand sets of production experience, through continuous improvement to make the mould can adapt to a variety of formulations and different equipment.

◆合理的尺寸取值及水气排布，保证模具的连续生产能力。

The size and moisture value of reasonable arrangement, and ensure continuous production capacity of mold.

◆定型模型采用雕刻成型代替传统的线切割，产品可视面平整度更能得到保证。

Setting model is adopted instead of the traditional sculpture molding line cutting, product visual surface flatness can be better guaranteed.

◆精良的加工设备及先进的制作工艺，保证了模具的复位精度。

The excellent processing equipment and advanced production technology, to ensure the return precision mould.

Quality / focus / quality / credibility

中空格子板模具、木塑门板模具
HOLLOW GRID BOARD EXTRUSION MOULD,
WPC DOOR PANEL EXTRUSION MOULD

PVC 木塑门板
PVC窗台板
PVC格子板
异型中空格子板
PVC-WPC door panel
PVC hollow board
PVC profile grid board
Special hollow grid board

◆主要用途：

中空整体门、折叠门、中空橱柜板、家具中空板材等。

MAIN APPLICATION:

Hollow overall door, folding door, Hollow cabinets board, furniture hollow board etc.

◆应用性强

衣架式流道，出料更均匀，更易成型，不滞料不糊料。

THE APPLICATION OF STRONG

Hanger type flow passage, a discharge more uniform, More easy moulding, don't lag material paste.

◆易操作

拆装方便且定位精准，更换部件即可做不同壁厚产品。

EASY OPERATION

Easy disassembly and positioning precision, replacement of parts can be of different wall thickness products.

◆省电节能

电加热棒植入模具内部，省电50%。

THE ENERGY SAVING

The electric heating rod implantation within the mould, saving 50%.

PVC结皮发泡板材模具 PVC CRUST FOAMED BOARD MOULD

WPC 建筑模板
PVC 结皮发泡板
PVC 木塑板
PVC 硬板、片材

WPC Building template
PVC crust foamed board
PVC wood-plastic panel
PVC board, sheet

◆主要用途：

橱柜板、建筑模板、家具板材、卫生洁具柜板等。

MAIN APPLICATION:

Cabinet board, building template, furniture board, sanitary ware cabinet board etc.

◆独家拥有国内发泡板材模具调试生产线，不断进行研发和改进。
Exclusive domestic foam sheet mould debugging production line, the ongoing development and improvement.

◆可实现在线调节板材厚度，无需更换部件。
It can realize the on-line adjustment board thickness, no need to replace parts.

◆衣架式流道设计使物料均匀，适合于各种不同配方。

The clothes rack channel design makes the material evenly, suitable for a variety of different formula

◆为客户从材料配方，操作技术、设备选型、模具技术等方面提供“交钥匙”工程。

For the customer to the material formulation, operation technology \ equipment selection, mould technology and other areas to provide "turn-key" project.

品质 / 专注 / 质量 / 诚信
Quality / focus / quality / credibility

PP•PE 木塑模具 PP•PE WOOD PLASTIC MOULD

PE+木粉
PP+木粉
PE+wood powder
PP+wood powder

◆主要用途：

园林景观、凉亭、护栏、栈道板、葡萄架、工业托盘、门板、建筑装饰板、发泡板、家具板材等。

MAIN APPLICATION:

Landscape, a pavilion, guardrail, plank road board, a grape, industrial tray, door plank, architectural decoration board, foam board, furniture board, etc.

◆模具先进的冷却系统设计,保证冷却效果的同时,能方便快捷的更换水管及清理水路。

Advanced mold cooling system design, to ensure that the cooling effect at the same time, the quick and easy replacement of the pipe and clean water.

04

◆独特的芯棒耐磨处理技术,有效提高模具的耐磨性能。
Unique mandrel wear-resisting processing technology, effectively improve the wear resistance of the mould.

05
