

BC300B

Water-based black pigment ink for printing on
semi-porous and porous substrates

- Great durable and sharp print without smearing or transfer
- Rapid absorption and fast drying with extended De-Cap time
- Perfect for both matte and glossy-coated labels and cartons

BC300B is designed for high-resolution printing of small characters, barcodes, 2D codes, images, and more at high speeds on semi-porous and porous substrates. Its quick drying time on various materials guarantees reliable and consistent high-quality industrial codings, requiring minimal maintenance between print jobs.
