

Kaifeng Jiuhong Chemical Co., Ltd

COMPANY PROFILE

Kaifeng JiuHong Chemical Co., Ltd

Kaifeng JiuHong Chemical Co., Ltd. was founded in July 2014, located in Kaifeng city, Henan Province, the middle of China. The detailed address is in No. 3, Suzhou Road West Section, Fine Chemical Industry Agglomeration Area, Yuwangtai District, Kaifeng City.

With the goal of building a "million-ton new material industrial park", the company has established subsidiaries or participating companies such as:

Shanghai Chenghong New Material Co., Ltd.,

Kaifeng Ruihong Chemical Co., Ltd.,

Kaifeng Yuhong New Material Co., Ltd.,

Ningxia JiuHong Chemical Technology Co., Ltd. etc.

Our company has a registered capital of 280 million yuan, covering an area of 400 mu, with a total investment of 1.2 billion yuan and more than 600 employees.

About the company:

After 9 years' development, we has formed a complete industrial chain with industrial naphthalene, butanol, octanol, terephthalic acid as the source, phthalic anhydride, resin, plasticizers products as the core.

The main export products: Phthalic anhydride (PA) and plasticizers like Dibutyl phthalate (DBP), Dioctyl Phthalate (DOP), Dioctyl terephthalate (DOTP), Di (2-propyl heptyl) phthalate (DPHP), Tributyl citrate (TBC) and 2-Ethylhexanoic acid. The comprehensive production capacity of our company is about 1 million tons / year.

- Phthalic anhydride capacity is 220,000 tons / year;
- resin capacity is 200,000 tons / year;
- 2-Ethylhexanoic acid capacity is 40,000 tons / year;
- plasticizer capacity is 54 tons / year.

About the products:

Phthalic anhydride(PA)

Dibutyl phthalate(DBP)

Dioctyl Phthalate(DOP)

Dioctyl Terephthalate(DOTP)

DPHP

Di (2-propyl heptyl) phthalate

Tributyl citrate(TBC)

2-Ethylhexanoic acid

The products application:

The products are mainly used in packaging, medical equipment, children's toys, car interiors, leather clothing, PVC plastics, paint and other manufacturing industries,

which can meet the needs of various grades of plastic.

The sales area:

The scale of our company is among the best in the chemical industry , the product quality is in the first-class.

Our products were exported to many countries, like the United States, Russia, India, Pakistan, Uzbekistan and so on, and got very good feedback.

The working area:

The company pays attention to the growth of the team and the realization of personal value, and has gathered a group of excellent domestic and foreign trade talents and efficient R & D innovation team and working team.
