

PM 340 PAGING MACHINE

PARAMETER

Model	PM 340	Paging Band Width	60mm
Separation Length	50mm-320mm	Width Of Separation	80mm-300mm
Separation Thickness	0.02mm-5mm	Conveyor Belt Finite Width	250mm (Factory dynamic balancing cutting)
Conveyor Belt Finite Length	1000mm	Speed Control	Inverter vector type
Paging Performance	High stability	Power Device	Domestic Phase asynchronous motor
Transmission	Gear / Chain / Belt / Paging	Power Supply Protection	AC integrated socket with fuse
Body Material	Stainless steel / Industrial type steel / 45#steel chrome plating treatment		
Surface Industry	Drawing polishing treatment	Machine Landing	Adjust the foot
Paging Stable Speed	High speed:40-115m/min,Low speed: 10-50m/min	Supply Voltage	AC220V-50HZ (★ to ground)
Motor Power	250W	Outline Dimension	1500mm(L) × 520mm(W) × 900mm(H)
Dimensions Of Packaging	1510mm(L)×560mm(W)×420cm(H)	Dimensions Of Weight	58kg

PLAN & DIMENSION
