Vinyl Wallcovering

Finish: Scrim Fabric Backed Vinyl

Match: RandomMatch

Roll Length: 50M (OR 30-Yd Bolt)

Roll Width: 54 in In.

Weight and Type: 15 oz Type I

Vinyl wallcovering is similar to traditional paper wallpaper except that it has thin polyvinyl coating on the surface, which makes it more durable. Vinyl wallcovering can be used anywhere, although it is usually installed in offices, hotels and other places that receive high traffic. Vinyl wallcovering that is 54 inches wide costs more, but it allows the installer to cover the walls of large areas quicker than with smaller rolls of wallcovering.
