Non-standard Solutions

NEW DESIGN
PERFORMANCE
SPEED
POWER
Manipulator load

• Dual-manipulator detection

• Explosion-proof - 5 axis motion

• Film/digital imaging switch mode detection

1

Precise diagnosis of demands

Professional support for in-depth research on scenarios and testing requirements

2

Targeted design

RAYSOV X-ray expert teams guarantee good performance product and fast delivery

3

Efficient production and manufacturing

Wide coverage network for core components to support efficient production

4

Multi-dimensional coordinated verification

Multi-dimensional delivery verification with various indicators in security, performance and environment

5

Full life cycle delivery

We offer a one-stop delivery service including installation and commissioning, operation training, and lifetime maintenance

• Built Just for You
