## Let's Enter The Digital Dentistry With UAS-Pro

CE ISO FDA

Intraoral Scanner
UAS-Pro

SMART
SMOOTH
SIMPLE

Fast Speed
Less Than 40s For Full Arch,Provides You The Smooth Scanning Experience

Smart AI
AI Technology Automatically Filter Out The Soft And Moving Tissues, Offering Users A Smooth Scanning Experience And Generating A Natural-looking Treatment Outcomes.

AI ON VS AI OFF

Button Usage:
Single Click : stop/start scan
Double-click : finish/ next step

Button Usage:
Single Click : stop/start scan
Double-click : finish/ next step

High Accuracy
The Average Deviation Of A In-vivo Full Arch Scan Is Less Than 20μm

Motion Control
Users Can Control The View By Rotating The Scanner, Reduce The Risk Of Cross Infection

Cloud Share
Dentists Can Transmit The Scanned Data Quicker And Easier, Achieving Better Communication With Dental Technicians

Deep Scan Depth
Deep Scan Depth Up To 25mm

Flexible After-Sale
Replaceable Type-C Cable Make After-Sale More Flexible.

Let's Enter the Digital Dentistry With UAS-Pro

Sterilization
Disinfection With 134℃, 100 Times

Fashion Design
Comfortable Dexterity Control

Motion Control
Reduce The Risk Of Cross Infection

18 MONTHS WARRANTY

Restoration, Orthodontics Implant, Oral Examination Report

Instant Heating
No Need To Wait For The Scanning Head Heating Time,Plug And Play

Turbine Cooling
Increased Heat Dispersion

Multiple Scanner Tips
3 Sizes,5 Tips For Optional

Lighter Design
Wight 240g

Replaceable Type-C Cable
Make After-Sale More Flexible

5 Tips Optional
Meets different clinical demand with Large , Small And 90°scanning tips, catering to various mouth sizes for a comfortable experience.

L 19x17mm   90° Angle 19x19mm   S 16x16mm

Product Fitting

1. Scanner Tip
2. Calibration Tool
3. UAS-Pro Handpiece
4. Scanner Base
5. User Manual
6. European Standard Adapter
7. American Standard Adapter
8. U Disk
9. Power
10. Data Cable

UAS-Pro Specification

Product Name	Intraoral Scanner	Tip Qty	5
Output Format	STL, PLY,OBJ	Motion Control	YES
Interface	USB3.0	Intraoral Camera	YES
Accuracy	<20μm	One-click Calibration	YES
Scan Depth	25mm	Light Source	LED
Scan Speed	Full Arch About 40s	A.I. Tech	YES
Weight	240g	Size	264mm*37mm*46mm
Power supply	DC12V 2A		
Scan Tip Sterilization	Support high-pressure Steam Sterilization, About 100 Times		

Minimum Computer Configuration

Operating System Windows 10(64-bit)	GPU NVIDIA RTX3060 6GB or above
CPU Intel Corei511 Gen or above	Resolution 1920X1080,60Hz
Memory 16GB	USB Port At least two USB 3.0 ports
Hard Disc 512G
