HiStone

Company Introduction

QINGDAO HISTONE INTELLIGENT COMMERCIAL SYSTEM CO.,LTD. (formerly Qingdao Hisense Intelligent Commercial System Co., Ltd.) was established in 1989; it is a leading business technology solution provider in the industry.

With more than 30-year experience in POS technology and Self-Checkout solutions, HiStone is among the top world-known developers of retail and hospitality machine technology. The company has insight into business development trends, leads the development of the industry, digs deep into the development needs of global enterprise users, and provides full-stack solutions covering commercial intelligent hardware, commercial software, operation and maintenance services, and consulting through research and development. The company has been at the forefront of innovative technologies in China, and its products are distributed throughout China and around the world. Powered by the significant R&D investment of the Shiji Group and its rich research base, HiStone focuses on technology innovation, which remains its core value today.

QINGDAO HISTONE INTELLIGENT COMMERCIAL SYSTEM CO., LTD. boasts high coverage rate of the top 100 national chain brands, at 64%; its coverage rate of the top 100 supermarkets is 62%. Business software solutions forged by the company have been successfully applied to more than 200,000 stores, more than 600 large and medium-sized distribution enterprises, and more than 100,000 small and medium-sized commercial enterprise customers, ranking Qingdao HiStone Commercial Technology Co., Ltd. as the industry leader in the field of small stores and large chains (including franchised stores and convenience stores) for many consecutive years.

QINGDAO HISTONE INTELLIGENT COMMERCIAL SYSTEM is willing to cooperate with you to create a new business future!

Overseas Business

The company's international coverage has achieved remarkable results, providing global customers with highly competitive solutions, which are widely used in supermarkets, shopping malls, convenience stores, franchise chains, restaurant chains, hotels, and cultural tourism service industries. Nowadays, HiStone operates in such markets as Americas, Europe, Australia, Africa, and APAC.

The scope of products available for these markets has gradually expanded, and a lot of customer groups and brands have been provided with high-quality services and high-quality products. The company is constantly improving its products and services to meet business needs of our partners and customers in order to create a new business future.

HISTONE is willing to partner with open-minded companies that foster global vision in order to bring a true value in the global digital transformation process.
