

Anodized Instrument Aluminum Enclosure For Generator Storage Box

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Delivery Time: 15-20 Workdays
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Heat Resistance: Good
- Design: Sleek
- Material: Aluminum
- Installation: Easy
- Corrosion Resistance: Excellent
- Shockproof: Yes
- Waterproof: Yes
- Durability: High
- Highlight: **Anodized Instrument Aluminum Enclosure,
Generator Storage Box Aluminum Enclosure,
Anodized aluminium instrument enclosure**

Product Description

Product Description:

Our Aluminum Enclosure is not only strong, but it is also shockproof, ensuring that your electronic components are safe and secure. This feature makes it an ideal choice for applications where the enclosure may be subjected to knocks, bumps, or drops. It is also highly corrosion-resistant, ensuring that it can withstand harsh environments such as marine or industrial settings, where corrosion is a common problem.

With a good level of heat resistance, this enclosure can handle the heat generated by your electronic components, keeping them cool and protected. This feature is particularly important for applications where heat dissipation is a concern, such as with power supplies or amplifiers.

The Aluminum Enclosure requires minimal maintenance, making it a cost-effective choice for your projects. Its anodized finish ensures that it is easy to clean and maintain, and it can be easily wiped down with a damp cloth.

This enclosure is made from high-quality anodized aluminum, which not only makes it strong and durable, but also gives it a sleek, professional look. Its square shape ensures that it can be easily integrated into a wide range of projects, and its compatibility with various electronic components makes it a universal choice.

In summary, our Aluminum Enclosure is a versatile, durable, and low-maintenance option for your electronic enclosure needs. Its shockproof and corrosion-resistant properties make it ideal for harsh environments, while its good level of heat resistance ensures that your electronic components remain cool and protected. Its anodized aluminum construction gives it a sleek, professional look that will complement any project.

Features:

Product Name: Aluminum Enclosure

Size: Customizable

Material: Aluminum

Weight: Lightweight

Design: Sleek

Waterproof: Yes

Anodized for durability

Battery compartment included

Technical Parameters:

Shockproof	Yes
Maintenance	Low
Waterproof	Yes
Material	Anodized Aluminum
Installation	Easy
Size	Customizable
Heat Resistance	Good
Design	Sleek
Color	Silver
Durability	High

Applications:

With its shockproof design, this enclosure is perfect for use in high-impact scenarios, such as for outdoor equipment, transportation, or industrial machinery. Its durability ensures that it can withstand harsh weather conditions, making it ideal for outdoor use.

Not only is this Aluminum Enclosure built to last, but it is also easy to install. With its user-friendly design, installation is a breeze, making it a great option for DIY enthusiasts and professionals alike.

In addition, this product has low maintenance requirements, meaning that it will not require frequent upkeep or repairs. This low-maintenance feature is especially beneficial for those who want a reliable, long-lasting battery box without the hassle of frequent maintenance.

Overall, the Aluminum Enclosure from No Brand is an excellent choice for anyone who needs a high-quality battery box that is built to last and easy to install. With its shockproof design, durability, and low maintenance requirements, this enclosure is perfect for a variety of applications, including outdoor equipment, transportation, and industrial machinery. Plus, with a delivery time of just 15-20 workdays, you can get your hands on this top-quality product in no time!

Customization:

The size of the enclosure is customizable to fit your specific needs. Made from high-quality aluminum, the enclosure is durable and

shockproof, making it a perfect fit for protecting your square-shaped batteries.

The enclosure comes in a sleek silver color, compatible with any device, and is designed to keep your battery safe and secure. Order now to get your customized Aluminum Enclosure for your square-shaped battery!

Packing and Shipping:

Product Packaging:

1 x Aluminum Enclosure

4 x Screws

1 x User Manual

Shipping:
