

Anodized Silver Strip LED Aluminum Profile Contemporary Design

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand

Product Specification

- Features: Lightweight
- Color: Silver
- Installation Type: Surface Mount
- Application: Lighting Industry
- Surface Treatment: Anodized
- Heat Dissipation: Efficient
- Thickness: Customizable
- Durability: High
- Highlight: **Anodized Silver LED Aluminum Profile,
Contemporary LED Aluminum Profile,
Contemporary led strip aluminium profile**

Product Description

Product Description:

The customizable shape of the aluminum profile allows you to create a unique and tailored lighting solution to fit any space. The sleek silver color of the profile adds to its modern and contemporary design, making it a perfect fit for any home or office.

The LED Aluminum Profile is specifically designed to work with strip lights and LED wall washers, making it a versatile product that can be used in a variety of settings. The efficient heat dissipation of the profile ensures that your lights will operate at their best, preventing any damage from overheating.

Whether you're looking to create a stunning ambiance in your living room or add some bright task lighting to your workspace, the LED Aluminum Profile is the perfect choice. Its durability and corrosion resistance make it a reliable and long-lasting addition to any lighting system.

So why wait? Choose the LED Aluminum Profile today and take your lighting to the next level!

Features:

Product Name: LED Aluminum Profile

Corrosion Resistance: Yes

Thickness: Customizable

Material: Aluminum

Application: Lighting Industry

Surface Treatment: Anodized

Perfect for strip light installation

Made of high-quality aluminum

Resistant to corrosion

Technical Parameters:

Durability	High
Heat Dissipation	Efficient
Material	Aluminum
Surface Treatment	Anodized
Installation Type	Surface Mount
Length	Customizable
Features	Lightweight
Width	Customizable
Corrosion Resistance	Yes
Color	Silver

Applications:

The LED Aluminum Profile is ideal for various occasions and scenarios, and can be used to create different lighting effects. It is particularly suitable for LED wall washer, strip light and education led light. For instance, the LED Aluminum Profile can be used in classrooms to create an educational LED light environment, where students can focus and learn comfortably.

The LED Aluminum Profile is well-suited for use in different applications where durability, efficient heat dissipation, and corrosion resistance are essential. It is perfect for outdoor lighting, such as landscape lighting, as it can withstand harsh weather conditions. Besides, it is also suitable for indoor lighting, such as hallway lighting, where it can be used to create ambiance and enhance the decor.

The product is also ideal for commercial use, such as in retail stores and showrooms, where it can be used to create a unique and attractive display. The LED Aluminum Profile can be used to highlight specific products, making them stand out more effectively, and thus increasing their visibility and appeal.

In conclusion, the LED Aluminum Profile is a highly versatile product that can be used in various applications and scenarios. It is well-suited for LED wall washer, strip light, and education led light, as well as other applications that require durability, efficient heat dissipation, and corrosion resistance. The product is an exceptional choice for anyone who wants to achieve a unique and attractive lighting effect while ensuring the longevity of the product.

Packing and Shipping:

Product Packaging:

- Each LED Aluminum Profile will be packed in a cardboard box.
- The box will be filled with bubble wrap to ensure the product is secure during shipping.
- The box will be labeled with the product name and specifications.

Shipping:

- We offer worldwide shipping.
- Shipping will be calculated based on the buyer's location and the weight of the product.
- Orders will be processed within 1-2 business days.
- Delivery times may vary depending on the buyer's location.
- Buyers will be provided with a tracking number to track their shipment.
