Product Description

Features:

Product Name: Aluminum Enclosure
Maintenance: Low
Material: Aluminum
Durability: High
Size: Customizable
Corrosion Resistance: Excellent
Battery: Compatible
Anodized: Yes
Finish: Matte or Glossy

Technical Parameters:

Weight	3.35KG
Material	Aluminum
Color	Customized
Maintenance	Low
Design	Sleek
Compatibility	Universal
Size	Customizable
Durability	High
Shockproof	Yes
Corrosion Resistance	Excellent

Applications:

This battery box is designed to be sleek, square, and made of high-quality anodized aluminum that is both durable and corrosion-resistant, which is perfect for those who want a product that will last for a long time.

The aluminum enclosure battery box is perfect for various applications, including automotive, marine, and industrial applications. It is also suitable for use in outdoor environments, as it is designed to be corrosion-resistant, making it ideal for harsh environments.

The installation of this product is easy and straightforward, making it perfect for those who do not want to spend a lot of time installing a battery box.

In summary, if you are looking for a battery box that is sleek, square, and made of high-quality anodized aluminum, then this product is perfect for you. It is durable, corrosion-resistant, and easy to install, making it ideal for various applications and scenarios.

Customization:

Packing and Shipping:

Product Packaging:

Each aluminum enclosure product will be packaged in a sturdy cardboard box to ensure safe transportation. The product will be wrapped in bubble wrap to prevent any scratches or damage during shipping.

Shipping:

We offer standard shipping and express shipping options. Standard shipping usually takes 5-7 business days, while express shipping takes 2-3 business days. Shipping costs will vary depending on the destination and shipping method chosen.
