

Light Fixtures LED Aluminum Profile Anodized Coating In Bulk

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Heat Dissipation: Efficient
- Material: Aluminum
- Surface Treatment: Anodized, Coating
- Corrosion Resistance: Yes
- Installation Type: Surface Mount
- Length: Customizable
- Durability: High
- Color: Customized
- Highlight: **Light Fixtures LED Aluminum Profile,**
Anodized LED Aluminum Profile,
Anodized led light aluminium profile

Product Description

Product Description:

With its ability to be customized in thickness and color, the LED Aluminum Profile can cater to various lighting needs. Whether it be for education led light fixtures or led wall washers, this product can be tailored to fit any lighting project.

The LED Aluminum Profile is an excellent option for those who prioritize energy efficiency and longevity. Its efficient heat dissipation system ensures that the product can maintain its optimal performance without overheating. This feature is crucial, especially when it comes to education led light fixtures that need to be operational for extended periods.

Additionally, the LED Aluminum Profile's corrosion-resistant attribute makes it an ideal product for outdoor lighting fixtures. Its ability to withstand environmental wear and tear ensures that the product can last longer than other conventional lighting products. This feature is essential for led wall washers that are exposed to water and other corrosive substances.

The LED Aluminum Profile is perfect for those in the lighting industry who require a product that can adapt to their specific lighting needs. Its flexible customization options make it an ideal choice for education led light fixtures and led wall washers. Its efficient heat dissipation system and corrosion-resistant feature ensure that the product can last longer than other conventional lighting products.

Features:

Product Name: LED Aluminum Profile
Surface Treatment: Anodized, Coating
Durability: High
Thickness: Customizable
Width: Customizable
Color: Customized
Compatible with led wall washer
Made of high-quality aluminum
Ideal for education led light installations

Technical Parameters:

Surface Treatment:	Anodized, Coating
Length:	Customizable
Heat Dissipation:	Efficient
Thickness:	Customizable
Width:	Customizable
Color:	Customized
Application:	Lighting Industry (aluminum, led wall washer, strip light)
Shape:	Customizable
Durability:	High
Corrosion Resistance:	Yes

Applications:

The LED Aluminum Profile is widely used in different commercial and residential applications. One of the most popular applications is for LED wall washer lighting. LED wall washer lighting provides an even wash of light on a vertical surface, making it ideal for highlighting architectural features or creating a dramatic effect. The LED Aluminum Profile is perfect for this application because it allows for the creation of a customized lighting solution that can fit any wall size or shape.

Another application of the LED Aluminum Profile is in education LED lighting. LED lighting is becoming increasingly popular in educational settings due to its energy efficiency and long lifespan. The LED Aluminum Profile can be used to create a customized lighting solution for classrooms, libraries, and other educational spaces. The product's anodized and coated surface treatment also makes it easy to clean and maintain, ensuring a hygienic environment for students and teachers.

The LED Aluminum Profile's customizable shape and width make it suitable for use in various settings, including residential and commercial spaces. The product can be used in homes as an accent lighting solution or in retail stores to highlight products and create an inviting atmosphere. The aluminum material also makes it a durable and long-lasting option for outdoor settings.

In conclusion, the LED Aluminum Profile is a versatile product that can be used in various applications. Its aluminum material and surface treatment make it corrosion-resistant and easy to maintain. The product's customizable shape and width make it suitable for use in different settings, including LED wall washer lighting, education LED lighting, and residential or commercial spaces.

Customization:

Packing and Shipping:

1 x LED Aluminum Profile

2 x Mounting Clips

2 x End Caps

Shipping:

Ships within 1-2 business days

Free shipping within the United States
