

Recessed Strip Led Light Aluminium Profile Housing OEM

Our Product Introduction

for more products please visit us on alu-heatsink.com

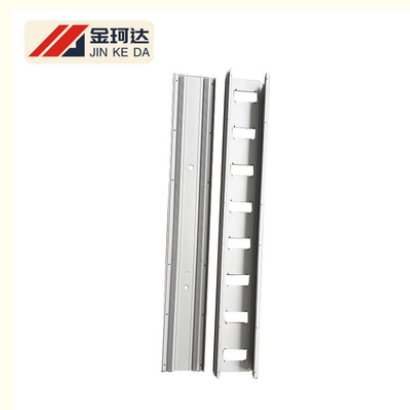

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand

Product Specification

- Heat Dissipation: Efficient
- Shape: Customizable
- Length: Customizable
- Application: Lighting Industry
- Durability: High
- Material: Aluminum
- Thickness: Customizable
- Installation Type: Surface Mount
- Highlight: **Recessed led light aluminium profile,
led light aluminium profile Housing,
Recessed led strip housing aluminium**

Product Description

Product Description:

With its efficient heat dissipation feature, our LED Aluminum Profile ensures that your LED wall washers are well-protected from overheating, ensuring their longevity and optimal performance. This product's surface treatment comes in two options: anodized and coating, both of which provide excellent protection against corrosion and wear and tear.

Our LED Aluminum Profile is designed for surface mounting, making it easy to install and perfect for various applications, such as in commercial buildings and homes. Whether you're looking to install LED wall washers in your living room, bedroom, or office, our LED Aluminum Profile is the perfect solution.

Additionally, our LED Aluminum Profile is compatible with various LED wall washer models, making it a versatile product that can accommodate different LED wall washer designs and sizes. With its sleek and modern design, this product not only provides efficient heat dissipation but also adds a touch of elegance to any space.

Overall, our LED Aluminum Profile is an excellent choice for anyone looking for a durable, customizable, and efficient heat dissipation solution for their LED wall washer installations. With its surface mounting feature, it is easy to install and perfect for both commercial and residential applications. Choose our LED Aluminum Profile for a reliable and long-lasting LED wall washer installation.

Features:

Product Name: LED Aluminum Profile

Material: Aluminum

Application: Lighting Industry

Corrosion Resistance: Yes

Durability: High

Heat Dissipation: Efficient

This LED Aluminum Profile is perfect for strip light applications in the lighting industry. Made of high-quality aluminum, it provides excellent corrosion resistance and durability. It also has efficient heat dissipation, making it a reliable choice for your lighting needs.

Technical Parameters:

Heat Dissipation	Efficient
Shape	Customizable
Length	Customizable
Installation Type	Surface Mount
Width	Customizable
Corrosion Resistance	Yes
Durability	High
Material	Aluminum
Surface Treatment	Anodized, Coating
Application	Lighting Industry

Applications:

The LED Aluminum Profile is an excellent choice for creating strip lights that can be used for a wide range of applications, including commercial and residential lighting. The profile provides a stable and secure surface for mounting LED strip lights, which can be used to create stunning lighting effects. The strip lights can be used to highlight architectural features, create a mood, or provide functional lighting in a variety of settings.

The LED Aluminum Profile is also an ideal choice for LED wall washers, which are used to illuminate large areas with a soft, even light. The profile provides a stable surface for mounting the LED wall washers, which can be used to create stunning lighting effects in commercial and residential settings. The LED wall washers can be used to highlight architectural features, create a mood, or provide functional lighting in a variety of settings.

Education LED lights can also benefit from the use of LED Aluminum Profile. The profile provides a stable and secure surface for mounting LED lights, which can be used to create a comfortable and functional learning environment. The education LED lights can be used to provide task lighting, ambient lighting, or accent lighting in classrooms, lecture halls, and other educational settings.

In conclusion, the LED Aluminum Profile is a highly versatile and durable product that can be used in a variety of applications and settings. Its excellent heat dissipation, customizable thickness, and corrosion resistance make it an ideal choice for creating strip lights, LED wall washers, and education LED lights. With its high-quality aluminum material and customizable color, the LED Aluminum Profile is an excellent choice for anyone looking to create stunning lighting effects in their home or business.

Customization:

Packing and Shipping:

The LED Aluminum Profile product will be packaged in a sturdy cardboard box to ensure safe delivery. The box will be properly labeled with the product name, quantity, and any other necessary information.

Shipping:

We offer worldwide shipping for the LED Aluminum Profile product. Shipping costs will vary based on the destination and shipping method chosen. We use reliable carriers such as FedEx, UPS, and DHL to ensure timely and secure delivery of the product to our customers.
