Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand

Product Specification

- Installation Type: Surface Mount
- Material: Aluminum
- Application: Lighting Industry
- Corrosion Resistance: Yes
- Surface Treatment: Anodized
- Thickness: Customizable
- Color: Silver
- Width: Customizable
- Highlight: **Residential LED Aluminum Profile,
Sleek LED Aluminum Profile,
Residential aluminium profile light**

Product Description

Product Description:

The aluminum material used in making this profile ensures that it is strong and durable, making it an ideal solution for both indoor and outdoor lighting applications. The profile has a sleek silver color that blends well with different types of décor, making it a great option for commercial and residential spaces.

The LED Aluminum Profile is designed to accommodate different types of strip lights and LED wall washers. This ensures that you can use it for various lighting applications, including accent lighting, task lighting, and general illumination. The profile is easy to install and provides a professional finish to your lighting project.

One of the key benefits of the LED Aluminum Profile is its customizable nature. This means that you can tailor it to your specific requirements, including the length, width, and shape. This feature makes it an ideal solution for different lighting projects, whether you need to install it along a straight edge, around a corner, or in a circular shape.

The LED Aluminum Profile is also designed to offer a high level of protection to your strip light or LED wall washer. It helps to dissipate heat from the light source, which can help to extend the lifespan of your lighting system. Additionally, the profile provides a physical barrier that protects the light source from dust, moisture, and other environmental factors that can affect its performance and longevity.

Overall, the LED Aluminum Profile is a great option for anyone looking for a reliable, efficient, and customizable solution for their strip light or LED wall washer installation. Its durable aluminum material, sleek silver color, and customizable nature make it an ideal solution for different lighting needs, whether you're installing it in a commercial or residential setting.

Features:

Product Name: LED Aluminum Profile

Material: Aluminum

Width: Customizable

Application: Lighting Industry

Thickness: Customizable

Shape: Customizable

Compatible with strip light

Suitable for use as led wall washer

Perfect for use in the lighting industry

Technical Parameters:

Attribute	Value
Color	Silver
Installation Type	Surface Mount
Material	Aluminum
Width	Customizable
Shape	Customizable
Heat Dissipation	Efficient
Thickness	Customizable
Durability	High
Length	Customizable
Surface Treatment	Anodized

Applications:

The LED Aluminum Profile is designed for surface mount installation, making it easy to install in various locations. The product shape is customizable, which allows you to choose the design that best suits your needs. Whether you want a curved or straight design, the LED Aluminum Profile can be customized to fit your preference.

The LED Aluminum Profile is perfect for education LED lights applications. It provides a bright and energy-efficient lighting solution that is perfect for classrooms, libraries, and other educational facilities. With its durability, you can be sure that the LED Aluminum Profile will last for many years, providing reliable lighting for your educational needs.

The LED Aluminum Profile is also suitable for strip light applications. With its surface mount installation type, the product is perfect for creating a sleek and modern lighting design. The LED Aluminum Profile can be used in various locations, including homes, offices, and commercial buildings.

Overall, the LED Aluminum Profile is a versatile and reliable lighting product that can be used in various applications. Its durability, customizable shape, and surface mount installation type make it a perfect choice for anyone looking for a high-quality lighting solution.
