

Sleek Aluminum Extrusion Housing Enclosure Boxes For Electronics

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Delivery Time: 15-20 Workdays
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Size: Customizable
- Compatibility: Universal
- Corrosion Resistance: Excellent
- Installation: Easy
- Color: Customized
- Maintenance: Low
- Design: Sleek
- Durability: High
- Highlight: Sleek aluminum extrusion housing, aluminum extrusion housing Enclosure, Sleek aluminum boxes for electronics

Product Description

Product Description:

Features:

Product Name: Aluminum Enclosure
Waterproof: Yes
Maintenance: Low
Type: Power Station
Compatibility: Universal
Material: Aluminum
Features:
Anodized finish for durability
Square design for easy installation
Waterproof for outdoor use

Technical Parameters:

Technical Parameter	Description
Compatibility	Universal
Material	Aluminum
Shockproof	Yes
Heat Resistance	Good
Color	Customized
Corrosion Resistance	Excellent
Size	Customizable
Installation	Easy
Design	Sleek
Waterproof	Yes

Applications:

The Aluminum Enclosure is designed for easy installation, which makes it perfect for DIY enthusiasts and professionals alike. The enclosure is made from high-quality anodized aluminum that is both waterproof and shockproof, making it ideal for use in outdoor environments. This product can be used as a power station, providing a safe and reliable enclosure for batteries and other electronic components.

One of the key advantages of the Aluminum Enclosure is its low maintenance requirements. The anodized aluminum is highly resistant to corrosion and other forms of wear and tear, which means that it will last for many years without requiring regular maintenance. This makes it an ideal choice for use in industrial settings, where reliability and durability are essential.

The waterproof and shockproof design of the Aluminum Enclosure makes it suitable for use in a wide range of different scenarios. For example, it can be used to provide a safe and secure enclosure for batteries and other electronic components in marine environments. It can also be used in outdoor settings, such as on construction sites or in camping and hiking scenarios, where it needs to withstand the elements.

In conclusion, the Aluminum Enclosure is a highly versatile and reliable product that can be used in a wide range of different applications. It is manufactured by No Brand, a leading manufacturer of high-quality enclosures from Guangdong, China. This product is designed for easy installation, requires low maintenance, and is both waterproof and shockproof. It is an ideal choice for use as a power station, providing a safe and secure enclosure for batteries and other electronic components.

Customization:

Brand Name: No Brand
Place of Origin: China, Guangdong
Delivery Time: 15-20 Workdays
Maintenance: Low
Durability: High
Size: Customizable (square)
Installation: Easy
Waterproof: Yes

Material: Aluminum
Finish: Anodized

Packing and Shipping:

Product Packaging:
The aluminum enclosure will be packed carefully in a sturdy cardboard box with foam padding to ensure that it arrives to you in excellent condition. The box will be labeled with the product name and our company information for easy identification.

Shipping:
We offer free shipping for this product within the United States. Orders will be processed and shipped within 1-3 business days. Delivery time may vary depending on your location, but typically takes 3-7 business days. We also offer international shipping for an additional fee. Please contact us for more information.
