Product Description

Product Description:

The LED Aluminum Profile is an excellent choice for creating a sleek and modern look for your project. It is perfect for installing LED wall washer lights to create a stunning accent wall. The profile's design allows for easy installation of LED lights, and it also provides extra protection to your LED lights from dust and moisture.

This LED Aluminum Profile is ideal for various applications, including commercial and residential projects. It is perfect for use in educational settings, such as classrooms and libraries, as it provides excellent lighting for reading and studying. The LED light is also energy-efficient, helping you save on energy costs while providing excellent lighting.

With customizable width, length, and shape, the LED Aluminum Profile is versatile and can be used in various applications. It is perfect for use in retail stores, restaurants, hotels, and residential projects. The profile's design allows for easy installation, making it ideal for DIY projects or professional installations.

In summary, our LED Aluminum Profile is a high-quality, durable, and customizable product that is perfect for surface mount installations. It is made from aluminum material and can be customized to fit your project's specific needs. The profile is ideal for creating a modern look with LED wall washer lights and is perfect for various applications, including educational settings. It is easy to install and can be used in various applications, making it a versatile product that is suitable for DIY projects and professional installations.

Features:

Product Name: LED Aluminum Profile

Width: Customizable

Application: Lighting Industry

Length: Customizable

Corrosion Resistance: Yes

Thickness: Customizable

This LED Aluminum Profile is a versatile product that can be customized to fit your specific needs. Whether you're looking to create an education LED light or a strip light for your home or business, this profile can be made to your exact specifications. Its corrosion resistance ensures that it will last for years to come, making it a smart investment in your lighting needs.

Technical Parameters:

Heat Dissipation	Efficient
Thickness	Customizable
Durability	High
Corrosion Resistance	Yes
Application	Lighting Industry
Color	Customized
Material	Aluminum
Width	Customizable
Installation Type	Surface Mount
Shape	Customizable

Applications:

One of the key features of the No Brand LED Aluminum Profile is its customizable width, which allows it to be adapted to a wide range of applications. This makes it an ideal choice for use in education LED light systems, where it can be used to create a range of lighting effects in classrooms, lecture halls, and other educational settings.

The No Brand LED Aluminum Profile is also well-suited for use in LED wall washers, which are commonly used in commercial and residential settings to highlight architectural features, artwork, and other design elements. Its high-quality aluminum construction and efficient heat dissipation ensure that it can provide reliable performance over the long term, even in demanding environments.

Overall, the No Brand LED Aluminum Profile is a highly versatile and reliable product that is well-suited for a wide range of applications. Its high-quality construction and efficient heat dissipation make it an ideal choice for use in education LED light systems, LED wall washers, and other applications where durability and performance are essential.

Manufactured in Guangdong, China, this product is made from high-quality aluminum, ensuring its durability and strength. It is designed for surface mount installation, making it a convenient and easy-to-use product. Its high efficiency heat dissipation system ensures that the product is energy efficient and long-lasting.

Customization:

Packing and Shipping:

Product Packaging:

1 x LED Aluminum Profile

2 x End Caps

2 x Mounting Clips

Shipping:

Shipping Method: Standard Shipping

Estimated Delivery Time: 5-7 business days

Shipping Cost: \$5.99
