

Product Name: Steel spraying hydraulic beauty table-aluminum alloy wrap-around edge

Model: UPLZGT-201

Product Size: 108*60* (53-90) cm

Package size: A: 111cm*62cm*4cm B: 85cm*52cm*52cm

Gross/net weight: A: 12.5kg/11kg B: 29.5kg/24kg

Technical parameters:

1. The desktop is 1.8CM density board. Black non-slip rubber mat is pagoda-type non-slip anti-static rubber. Blue non-slip pad for the polka dot non-slip anti-static rubber.
2. Aluminum alloy wrapped edge, wrapped edge is not easy to fall off, strong and durable.
3. Nylon fixture a boom; boom for 201 stainless steel, adjustable height, a boom. The length of 123cm wall thickness of 1.0mm, the boom is equipped with braided rope to facilitate the fixed pet, its length is 50cm.
4. The base is "Z" type metal structure, wall thickness 1.0mm, and electrostatic plastic spraying combined with beautiful technology; with high quality hydraulic pump, can make the table smooth lifting and lowering, load capacity of 100kgs, lifting range of 40cm to 95cm; the bottom is equipped with adjustable screws, so that it can be placed on a different ground conditions can be placed smoothly; using a folding bailing frame, convenient and durable. Folding bail frame, convenient and durable.
- 5.5 layers carton packing. Corner bubble bag foam protection.
6. Stainless steel base can be customized;
7. Optional: gantry boom and curved moon boom.
