Hangzhou Baizun Metal Manufacturing Co.,Ltd

# Company Profile

## 公司简介

Operating since 1995

Hangzhou Baizun Metal Manufacturing Co. Ltd (Hangzhou Xiaoshan Lily Hardware Manufactory), founded in 1995, is an enterprise with comprehensive strength in researching and developing, producing, marketing, export trading and more. Our company is developing step by step led by Mr. XuBaigang. We moved to our new plant last 2015, with an area of 11,000 square meters.

### Supported by Robot Welding Machines

Our main production and processing are metal stamping parts, sheet metal parts, welding assembly parts, vehicle processing parts, fasteners and plastic parts. Our maximum punch is 400T and we own several robot welding machines. Since the establishment of our factory for over 20 years, we have been absorbing lots of professionals and technicians committed to the development and continuous improvement of product quality.

We have rich experience and mature technology, so our products offered comes in more than 500 types. More than 90% are

exported to European and American countries.

Our manufacturing capabilities are summarized as follows:

1. Stamping materials: carbon steel (including cold rolled steels, hot rolled steels, galvanized sheets, steel strips), stainless steel, aluminum, copper alloy and more
2. Processing: stamping, punching, bending, tapping, milling, lathe, welding, assembly and more
3. Surface treatment: zinc plating, powder coating, heat treatment, nickel plating, chrome plating, electrophoresis, blackening and PVC coating

### Widely Used in Various Products

Baizun's products are widely used in agricultural machinery, automobile manufacturing, electronics, construction, furniture, machinery parts, electronic component, aerospace and other products.
