

## Features & Benefits

- 1、Adopting high strength aluminum alloy 6005-T5 and stainless steel 304 material.
- 2、Some components are pre-assembled in factory, so that to reduce the labor cost and installation time on site.
- 3、High anti-corrosion.
- 4、Making customized as request.

## Technical Information

Technical Information	
Tilt Angle	5° ~ 30°
Max Wind Speed	45 m/s
Max Snow Load	1.5KN/m <sup>2</sup>
Material	AL6005-T5 & SUS304
Warranty	10 Years

## Project Reference
