

# SOLAR MESH GUARD KIT

The Solar Mesh Guard Kit is designed to keep pest birds and rodents from getting under solar panels and damaging the roof and electrical wiring. This system securely protects panels by creating a physical barrier that excludes pests from solar panel mounting areas. The Solar Kit secures safely onto solar panels without damaging the solar panel or voiding the panel warranty.

## Component List

**Solar Panel Mesh Clip 01#**

Material: SUS 304

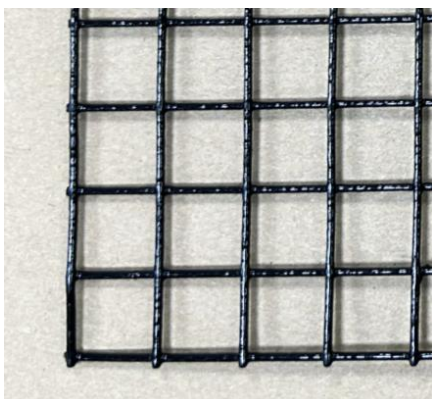

**Solar Panel Mesh Clip 02#**

Material: SUS 304

**Solar Mesh**

Material: Q195

## Technical Information

Surface Treatment	PVC-coated steel, Black finish
Mesh Size	12.5mm x 12.5mm
Common Use Size	W150mm*L30.5m/roll
	W200mm*L30.5m/roll
Warranty	1 Year

# SOLAR MESH GUARD KIT

## Installation Instructions

### Tools for Installation

Work Gloves

Rule

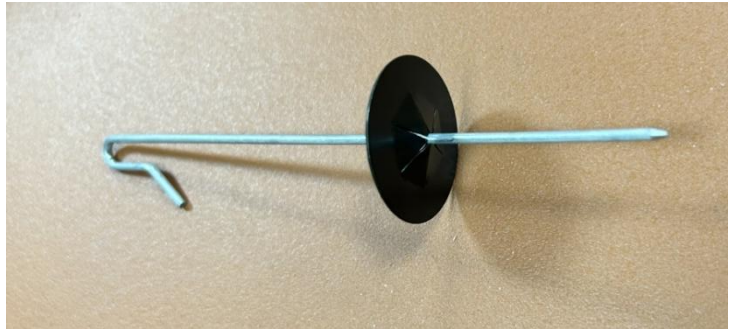

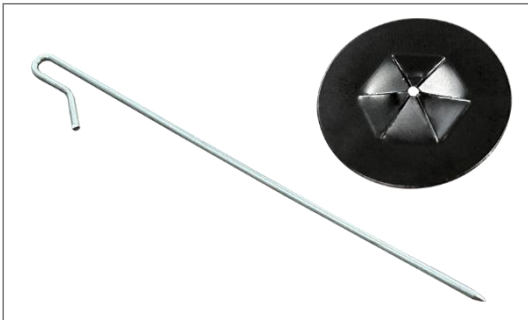

Wire Beading Tool

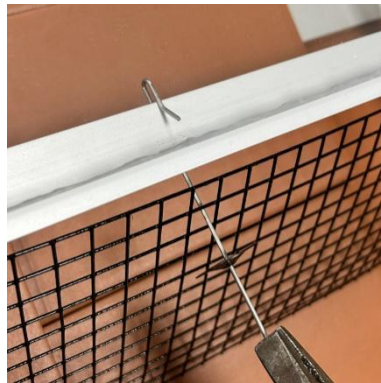

Cutting Tool

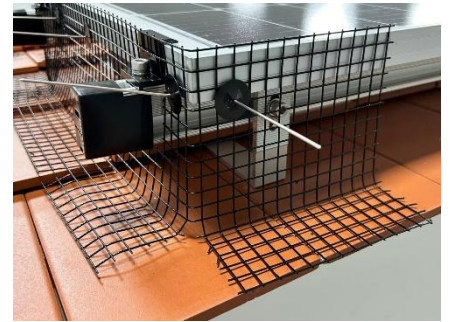

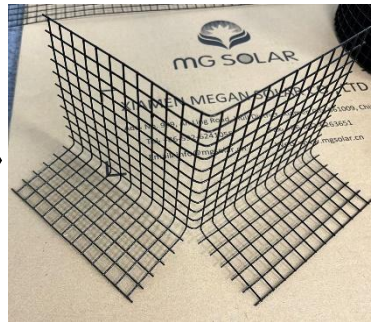

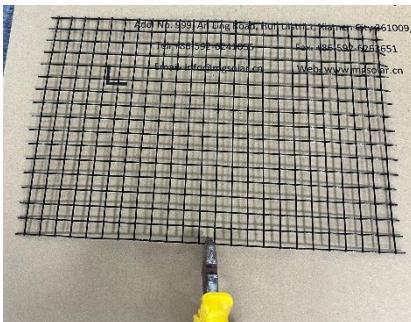

### Solar Panel Mesh Clip Kit

### Solar Mesh Installation

Fixed the clip over the lip of the solar panel frame. Use a clip every 18 inch or less. This no drill solution provides long lasting and discreet exclusion.

DIY time: Cut off any excess mesh sticking over the top edge of the solar panel array. Where the corners come together use two pieces of mesh panel. DO NOT try to bend the mesh panel to go around the corner.
