Brand Name	JINGGONG
Year of Issue	2023
Place of Origin	Fujian, China
Weight	6 tons
Rated Power	36.2KW
Bucket Capacity	0.25 m ³

JG60L Bucket Crawler Excavator

JG60L has beautiful appearance, high configuration, superior performance, low fuel consumption, and wide operating range. It is suitable for land loosening of vegetable greenhouses, landscaping in municipal departments, digging pits in orchard nurseries, concrete pavement breaking, sand and stone mixing, and construction operations with narrow space.

Use quick-change joints, optional auger drills, breakers, loading buckets, bulldozers, grabs and other attachments to reduce maintenance and operation costs, liberate labor, improve mechanization, low investment and high return . With its small and flexible body and high

SPECIFICATIONS		
RANGE OF OPERATION	Boom length	3300mm
	Arm length	1850mm
	Maximum Digging Reach	6350mm
	Maximum Digging Depth	3570mm
	Maximum Digging Force	45KN
	Maximum Digging Height	6600mm
	Maximum Dumping Height	4500mm
	Back-end radius of gyration	1800mm
DIMENSION	(Length*width*height) travel position	5500*2100*2650mm
	Distance From The arm to Rotate Machine	3600mm
	Gauge base	2060mm
	Track Gauge	1570mm
	Width Of Crawler	400mm
	Ground clearance of counterweight	780mm
	Min ground clearance	280mm
TECHNICAL PARAMETERS	Angle of rotation	360°
	Machine weight	6000kg
	Engine model	YANMAR
	Rated Power	36.2KW
	Rated Speed	2200r/min
	Hydraulic system working pressure	20Mpa
	Hydraulic system flow	140L/min
	Piston pump	72ml/r
	Max Hauling force	45KN
	(High speed/low speed)	4.5/2.5km/h
	Grade Climbing ability	70%/35°
	Volume Of Bucket	0.25m ³
	Revolution Overdrive Pressure	20Mpa
	Full circle swinging time	5.5s
	Fqt Fuel Quantity	≥4L/h
	Capacity Of The Fuel Tank	110L
Hydraulic Tank Capacity	110L
