

LoRa GPS Tracker

Product Brief

Description

LGT-10 is a Compact, low power consumption LoRa based GPS tracking device for tracking various assets and the living equipped with a rechargeable battery. Integrated with LoRa+GPS+BLE chips , which enable LGT-10 pairs with your phone and transmit message and GPS location from device to device through LoRaWAN network, communication range up to 5KM. Ultra low power consumption combine with private network , makes it ideal for outdoor adventure and traveling .

Features

- **Communicate Via LoRa , no SIM card required**

LoRaWAN compliant, create a reliable backup communication network for use when cell service is down . communication range up to 5KM line-of-sight, unlike Bluetooth trackers , compass allow you to see where the object is even when is far away.

- **Build in BLE**

Build in BLE chip allow Compass pairs with your smart phone , transmit message and GPS location from device to device through LoraWANnetwork.

- **Support Off Line Map , SOS , Geo-fencing & Message**

With a simple press of the SOS button on the device, you can send an SOS signal in the case of an emergency. Set a customized safe zone and get notifications on your phone when the object enter or leave the zone.

- **Long Battery life**

The device transmit message at a configured frequency when activated, battery life up to 10 days @ one locate per half an hour. A notification is sent when the battery power falls below 20% .

- **IP65 enclosure , easy to install on any object**

LoRa GPS Tracker

Product Brief

| Parameters | Specification |
|--------------------------|--|
| Frequency Band | 868~928MHz |
| Battery Specs | Recharge Li-ion battery,1000mAh |
| Temperature | -20~65°C |
| Dimensions | 100*33*20mm (Weight 80g) |
| Modulation | LoRaWan |
| Transmit Power | +27dBm |
| Bluetooth | BT 4.0 |
| GPS positioning solution | REALTEK MG1009R,Sensitive down to -148dB |
| GPS accuracy | 5 Meters |
| LED indicator | Configurable |
| Protection Requirements | IP65 |
| Data upload rate | Customize |

Application

1. Outdoor Adventure: Stay connected in remote areas when cell service is down , share GPS locations and send SOS if you get into trouble .
2. Locate and track children, elderly and disabled people, prevent them from missing , send SOS in emergency.
3. Group management: LGT-10 allows you to keep track of all members of your group within the field in real time
4. Asset tracking : LGT-10 can be used to track pets , vehicle, fleet , parcels or bags .
