- 10. Anti-aging and antioxidant.

### Usages

- Healthcare products
- Pharmaceutical raw material
- Extract raw material
- Cosmetic products
- Supplement

## How to distinguish raw rhubarb from prepared rhubarb?

### Appearance:

The raw rhubarb is irregular thick slices or blocks, the surface is mostly yellowish brown or yellowish brown, the center has a texture, slightly cinnabar points.

The surface of the prepared rhubarb is dark brown, and the texture is solid.

### Medicinal value:

Raw rhubarb is bitter and cold and has a strong purgative effect. It has the effect of attacking hardships and leading to purging fire and detoxification.

After cooked rhubarb is steamed with wine, the diarrhea effect is relieved, and it can promote blood circulation and remove blood stasis.
