Used for chronic diarrhea of spleen deficiency, nocturnal emission, palpitations and insomnia.

### Harvesting

Harvest the fruits when they are mature from September to October. Cut the lotus, peel the shells and fruit, dry them and select again.

**BOHERBS**  
born in nature, better in organic  
春 晖 本 草

### Advantage

1. Large cooperative planting base: Picking in season, tender lotus picked in the mature and full period, ripe but not old, **100% pollution-free**.
2. **Mechanical dermabrasion, remove lotus heart ,selected by hand** with large and plump lotus seeds, uniform in size, to ensure the original fragrance and nutrition of the lotus seeds
3. Excellent production management and quality inspection team: **GMP certification**, product quality can be guaranteed.

### Benefits

1. Clear heat and reduce fire
2. Strengthen the mind and soothe the nerves and promote sleep
3. Lower blood pressure
4. Anti-cancer
5. Replenishing essence and can help the body to carry out normal metabolism
- 6, lotus seeds can improve eyesight

### Storage

The lotus seeds have a hard shell, which is a natural protective film. As long as the shell is not broken, it can retain the fragrance of the lotus seeds and also preserve the nutrition.  
It needs to be stored in a cool, dry and ventilated place.
