### Applications

- \* Medicines & Pharmaceutical raw material
- \* Healthcare products
- \* Extract raw material
- \* Cosmetic products
- \* Tea ingredients

## Usages of Red Poney Root

**Traditional Chinese Medicine**

**Cosmetic & Personal care**

### Benefits

1. Anti-thrombosis
2. Anti-platelet aggregation effect
3. Hypolipidemic and anti-arteriosclerosis effect
4. Effects on the cardiovascular system
5. Anti-tumor effect
6. Hepatoprotective effect

### Why choose us?

1. 20 years of exporting herbs and natural ingredients experience.
2. Factory supplier cooperate with farm, to ensure the newest crop and most competitive prices.
3. More than 10 Organic farms.
4. Our factory is near to sea port to save the transporting cost.

Fast lead time after payment, large stock and direct cooperation with farm, make it possible.

### Description

1. There are two kinds of Paeony: Red Paeony, wild-crafted in the Northeast China, and White Paeony, cultivated in the South of China. This does not refer to the color of the flowers, which are pink, red, purple, or white, but to the color of the processed root.
2. Belonging to the same species, they have something in common: the Paeoniflorin, working quite well on antiseptis and anti-inflammation and usually used as preservative and anti-oxidant in cosmetics to cure dark spots and acnes. At this point, Red Paeony root is richer in Paeoniflorin than the White one. Besides, due to wild-crafted growing of the Red one, it's free from pesticides, thus it's of better quality and more favored by buyers around the world.
